Dear Peter,

I would like to thank you for the support you have given myself and St Josephs College in maintaining our Essential Services and Electrical contract work.

The service level provided was of the highest quality. Your company has highlighted many issues that other companies have not picked up on. I also appreciate the time you have saved me due to your commitment in quality, service and communication.

I would like to provide a special thank you to your service technicians as they are always friendly and a pleasure to work with. I am leaving this college to pursue other opportunities and because you have provided outstanding support I would like to repay you and provide this testimonial for other customers.

Thanking you for your support.
